

Shetland Craft Trail & Makers

2025-2026

Shetland Craft Trail

The strong influence of Shetland's landscape, heritage and culture can be seen in the creative output of Shetland's craftmakers, designers and artists; in ceramics, textiles, woodcraft, jewellery, photography, printmaking, sculpture, painting and much more...

Welcome to the Shetland Craft Trail and map for 2025, created by the Shetland Arts and Crafts Association.

This map of Shetland's creative landscape can lead you on a journey throughout Shetland to visit craft studios and workshops from Unst in the north to Scousburgh and Fair Isle in the south, from Bressay in the east to Walls in the west.

Craft makers, designers, applied and visual artists produce a diverse range of products as part of a growing creative community.

Inspiration often comes from their environment, culture and the use of indigenous materials.

This booklet lists 27 craft workshops and working studios where you can meet the artists and designers, shop for unique gifts or commission something special.

A total of 65 full members with contact details are listed in this booklet.

All have gone through an independent quality assessment procedure to insure they meet the highest standards of design, workmanship, packaging and production.

In addition, the map lists 15 Outlets.

These are shops and places of interest relating to the arts and crafts, exhibiting and selling work.

The Shetland Arts and Crafts Association was set up in 1995 to develop and market contemporary Shetland craft. Over the decades it has gone from strength to strength as we now celebrate our 30 year anniversary.

We hope you enjoy your visit and take home a unique piece of Shetland from one of our makers.

QUALITY ASSESSED

**HIGHEST STANDARDS OF
DESIGN, WORKMANSHIP,
PACKAGING AND
PRODUCTION**

what3words

To assist you in locating our Craft Trail members' premises we have included a what3words reference. These can be typed into the app which is available from Apple and Google app stores. The app displays a location map with directions and estimated time of journey.
